SPIC IT INCUBATION CENTER

Initiative to promote IT Start-ups

The SPIC Incubation Centre was set up by the administration to be pre eminent in nurturing entrepreneurship directed towards the development of economies and societies. SPIC provides a platform to start-ups, prospective entrepreneurs and intrapreneurs to convert their innovative ideas into commercially viable products and enhancing software exports from Chandigarh. SPIC plays a vital role in developing the entrepreneurial ecosystems in young professionals of this region by promoting small IT/ ITES companies in setting up their facilities. The vision of INNOCUBE is to promote entrepreneurial spirit for creation of successful business organizations towards employment for economic benefits of the state by helping the novice companies to endure and grow during the start up period.

This Incubation Centre was set up in Punjab Engineering College, Sector 12 on March 6, 2002, in an effort to encourage IT companies to set up their facilities in Chandigarh. Start up IT companies are provide space on lease initially for 3 years and once the startup gets on its own feet they shift to other locations. It has a built up space of more than 7000 square feet where shell space is provided to small and start up IT/ ITES companies where they have been provided internet bandwidth connectivity by STPI for software exports. SPIC acts as single window system to facilitate IT companies at Incubation Centre by providing assistance in business basics, networking activities, recruitment of IT manpower as well as creating conducive environment for conducting IT business.

SUCCESS STORY @ SPIC IT INCUBATION CENTRE

"I am glad we chose the SPIC Incubation Centre at the PEC Campus, when we decided to move our business to Chandigarh. We not only had an office in the middle of a great campus, the cost and facilities that were offered were exactly what any start-up would be looking for. Any issues we had during our stay were quickly addressed and the Chandigarh Administration did a sterling job of maintaining the facility. I wouldn't hesitate to say that the time we spend at the SPIC Incubation Centre truly planted us on the way to success."

SAMEER JAIN
Chief Executive Officer

Net Solutions promoted by Mr. Sameer Jain started low and slow. They began their business from SPIC IT incubation Centre as a web service provider in year 2002 and continues to do so today. The location in the heart of the city helped Net Solution draw great talent from all around India. By the time they left SPIC, this company doubled in size with state of the art campus in RGCTP Chandigarh and quadrupled in revenue. Net Solutions is now a team of over 200 which currently handles web development as well a mobile app development for iOS and Android operating systems along with apps for Facebook too.

SUCCESS STORY @ SPIC IT INCUBATION CENTRE

“SPIC provided good infrastructure in terms of connectivity, security, housekeeping etc. We were able to hire good talent while in this office and soon outgrew the space.”

VISHAL CHALANA
Co-founder

WINSHUTTLE™

Winshuttle is an enterprise software product company started in 2003 in Seattle, USA. At the very beginning, they were doing product engineering from Chandigarh, India. After working from the co-founder, Vishal Chalana's home for a couple of years, in 2005, they moved to the incubation centre in SPIC inside the PEC campus. It had a small space of around 500 sqft which was built for around 10 people. After about one and a half years in SPIC, they needed more space and started searching. Currently they have notched up 15000 sq. ft office and are already around 150 people and read to go in for some more space hunting again. Winshuttle Inc Ranked one of the fastest growing SAP solution providers by Inc. magazine in 2007. Winshuttle bagged the Fast tracker award for the year 2007-08 from STPI.

SUCCESS STORY @ SPIC IT INCUBATION CENTRE

we initially started the company in the city. All the necessary support was provided by SPIC with complete satisfaction and with minimum impact to our budget. It was great experience while operated from the SPIC Incubation Centre and it indeed was a big factor in our growth and achieving what we had envisioned.”

SUNIL VASHIST
Director Operations

Outline Systems, Inc. (Outline) started their operation in India from SPIC IT Incubation Centre in 2006. They started their business on a small scale with team of 4-5 professionals primarily focusing on enterprise software development and services. Being a CMMI Level-3 company, Outline is an IT solutions and services provider mainly for the insurance industry in US. Their team of domain experts along with ready to deploy techno-functional components presents a unique value proposition to their clients. At present, Outline, having its corporate office in New Jersey US, has more than 120 employees in their Chandigarh office to meet their business demands.

PRESENT START-UPS @ SPIC IT INCUBATION CENTRE

At present 5 start up companies are operating from SPIC IT incubation centre which are dAPPStudio, Maestro Global Services, Exousia and Welkinfort. Most of these companies have started their venture from here.

"We Really thankful to SPIC and Department of Information Technology, Chandigarh administration for providing the opportunity to work in SPIC IT Incubation Centre."

NAVDEEP SINGH GILL
Founder & CEO

XENON

Xenon DigiLabs LLP was started in 2014 (Registered as a Limited Liability Partnership in 2015) by a Research Scholar, Domain expertise and 2 young geeks at different places in India, collaborated to serve a Foreign Telecom client Its DevOps approach applies agile and lean thinking principles to all stakeholders who develop, operate or benefit from an organisation's software systems. Under cloud deployments, it provides a catalogue of customisable multi-vendor IT infrastructure. Through its big data solutions, it helps users know the worth of what they have in their warehouse. Besides these, it also provides IoT solutions and mobile applications.

"Xenon DigiLabs LLP, a startup company at SPIC IT Incubation Centre featured in top 10 startups in Chandigarh by Your Story. This is the only startup which is working in cloud, bigdata and data science solutions."

WHAT CLIENTS HAVE TO SAY ABOUT US

"We have been working with XenonDigiLabs since 3 months now and they have been phenomenal in developing, customizing and optimizing our big data analytics platform and our fraud solution. Navdeep and team are more than just augmentation members. Their deep expertise in dev ops, big data architecture and performance of big data analytical solutions is very instrumental to Infinilytics' customer implementations."

SRIDEVI RAMASWAMAY
Founder & CEO
INFINILYTICS INC.,USA

"Being a part of SPIC center has helped Exousia Tech avoid many of the pitfalls and difficulties faced by small businesses. In 1 year we have grown from 1 employee company to 17 Full time employees. It has been possible due to many factory likes - 24 hour backup generator, tremendous support for hiring new talent from SPIC itself and assistance in day to day activities by SPIC authorities. Getting all this lets us focus on our core business and helps us grow at a rapid stage."

SAHIL KOHLI
Founder & CEO

The idea of this company was conceived by young IT professionals who quit their job in Bangalore and jointly started this venture. They started their operation in July 2015 and in such a short span they have developed and launched popular mobile apps like; Fingerfry, Night Factory app and website & Dark moon.

WHAT CLIENTS HAVE TO SAY ABOUT US

"My experience with the team at Exousia was amazing. From day one, they were very easy to work with and always there to answer all of my questions. The dedication they have shown towards my project far exceeded my expectations."

CASTIEL HAMIDI
METRIC & GAMERX

"It is a wonderful location for us and we are happy to be here. I feel happy that I'm a part of a legacy Incubator now and we are working twice as hard to maintain the standards. dAppStudio will always be happy to be in SPIC"

DIVANSHU
Founder & CEO

This venture has been started by a young IT professional alone with conviction in his ideas. The company is doing some innovate and outstanding work in the field of mobile/website development for its client in UK & US. They have started their operation in March 2015 and with in span of 10 months they are team of 10 professionals.

“When we decided to open Maestro office in Chandigarh, finding an affordable and secure place in a serene environment was the priority. SPIC offered us exactly the place we were looking for, providing a peaceful and secure environment for our team in the midst of a green campus. Apart from the basic facilities needed for a start-up, one major advantage is the ready availability of skilled manpower from SPIC training centre, right next door. I am glad we chose SPIC for our India operations.”

KAMAL SINGH
Founder

In pursuit of Maestro's goal to become the premier provider of big data services and solutions globally, Maestro Global Services India Private Ltd (MGS IPL), has been setup in Chandigarh, India as its Indian arm and Global 2015.
